Sway Brace assemblies are intended to be installed in accordance with NFPA®-13 and the manufacturer's installation instructions.

The required type, number, and size of fasteners used for the structure attachment fitting shall be in accordance with NFPA-13.

*Part numbers and article numbers are for EG only. Other coatings available. Contact customer service for availability.

**Metric pipe sizes are not UL listed.

*** The CSB0500C and CSB0600C custom assemblies are neither UL listed nor FM approved. Although it may use existing components or UL listed and FM approved products, these new assemblies are neither. CSB0500C fits five (5) inch no-hub cast iron pipe, CSB0600C fits six (6) inch no-hub cast iron pipe.

WARNING:

1. nVent products shall be installed and used only as indicated in nVent product instruction sheets and training materials. Instruction sheets are available at www.nVent.com and from your nVent customer service representative.
2. nVent products must never be used for a purpose other than the purpose for which they were designed or in a manner that exceeds specified load ratings.
3. All instructions must be **completely** followed to ensure proper and safe installation and performance.
4. Improper installation, misuse, misapplication or other failure to completely follow nVent's instructions and warnings may cause product malfunction, property damage, serious bodily injury and/or death, and void your warranty.
5. Products that are manufactured using spring steel components shall be used only in a non-corrosive indoor environment.
6. All pipe supports, hangers, intermediate components and structural attachments must **ONLY** be used as described herein and are **NEVER** to be used for any other purpose.

NOTE: All load ratings are for static conditions and do not account for dynamic loading such as wind, water or seismic loads, unless otherwise noted.

The customer is responsible for:

- a. Conformance to all governing codes.
- b. The integrity of structures to which the products are attached, including their capability of safely accepting the loads imposed, as evaluated by a qualified engineer.
- c. Using appropriate industry standard hardware as noted above.

SAFETY INSTRUCTIONS:

All governing codes and regulations and those required by the job site must be observed. Always use appropriate safety equipment such as eye protection, hard hat, and gloves as appropriate to the application.

nVent, nVent CADDY, nVent ERICO Cadweld, nVent ERICO Critec, nVent ERICO, nVent ERIFLEX, and nVent LENTON are owned by nVent or its global affiliates. All other trademarks are the property of their respective owners. nVent reserves the right to change specifications without prior notice.

** - Cast Iron Service Pipe per the Cast Iron Soil Pipe Institute Standards 301

*** - Cast Iron Application application was evaluated to the requirements of ANSI/FM 1950; for use with 1 to 2 NPS Schedule 40 brace pipe

#1

Insert brace pipe and drop clamp over service pipe

#2

Tighten nuts until head snaps off

Note: Tighten Top Nut First

#3

Tighten set screw until head snaps off

CSBXXXX(N) is a Sway Brace Fitting to be combined with a nVent CADDY brand Structural Attachment Fitting and "Bracing Pipe" to form a complete bracing assembly.

Sway Braces shall be installed in accordance with NFPA®-13.

Longitudinal

Lateral
