

'SHUTGUN' SPRINKLER HEAD SHUT OFF TOOL

Description:

The Shutgun is an indispensable emergency fire sprinkler shut off tool for firefighters and maintenance personnel who need to shut off an activated fire sprinkler fast. Its one hand operation allows it to be used safely from a ladder. The fusible link will release the installed Shutgun at a temperature of 164° F/73° C if there is a fire which means the building remains protected while it is in place. Help prevent excessive water damage to building and contents – order the Shutgun today. Tip: Put a Shutgun emergency fire sprinkler shut off tool with every fire extinguisher for maximum availability.
