

## GROOVED CHECK VALVES

Our new grooved check valve comes with four, ½" pre-tapped outlets - two on the system side and two on the supply side. This allows the valve to be configured for a variety of situations.

- Ductile iron body
- Working pressure 300 PSI
- Tapped and plugged ports to accept 'shotgun trim' (sold separately)
- Spring-loaded steel clapper
- Rubber seat seal at back pressures greater than 1 PSI
- Baked on outer coating keeps valve free of rust and corrosion

Available in sizes from 2" to 6"

FM and cUL Listed
