At-a-glance

TYCO Rapid Response Series LFII Residential 4.2 K-factor Concealed Horizontal Sidewall Sprinkler is a decorative, fast response, fusible link sprinkler featuring an aesthetic flat plate cover designed to conceal the sprinkler within a wall.

Designed with heat sensitivity and water distribution characteristics proven to help in the control of residential fires and to improve the chance for occupants to escape or be evacuated. The Series LFII Residential 4.2K Concealed Sidewall Sprinkler is intended for use in the following scenarios:

- Wet pipe residential sprinkler systems for one and two family dwellings and mobile homes per NFPA 13D
- Wet pipe residential sprinkler systems for residential occupancies up to and including four stories in height per NFPA 13R
- Wet pipe sprinkler systems for the residential portions of any occupancy per NFPA 13
