

Custom Paint Cover Plates

For Concealed Sprinklers

Match your sprinkler cover plates to provide a seamless, discreet design option. With the Tyco custom paint process, cover plates can be painted to match standard paint numbers or a provided paint sample in a variety of popular finishes.

How It Works

1. Choose the cover plate model for the selected sprinkler.
2. Provide a standard Sherwin Williams, Benjamin Moore or RAL paint number, or mail a swatch or paint sample to your local Tyco representative for a custom match.
3. Tyco will paint your cover plate in the chosen color and finish, then ship your order.

Available Custom Paint Options
