

EXTROL®

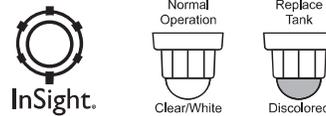

Extrol expansion tanks accept expanded fluid in closed-loop hydronic systems to control pressure buildup, improve comfort and help reduce energy costs. Nearly seven decades after inventing the first diaphragm expansion tank, Amtrol's lineup now includes specialty models engineered for modern, high-efficiency systems. None of it would have been possible without Extrol – The One That Started It All™.

7-Year Warranty: The Industry's Longest

- Strong, deep-drawn steel construction
- Water tight reservoir for expanded water
- Thick, heavy duty Butyl/EPDM diaphragm for long service life
- Sealed air cushion; factory pre-charged and 100% tested

Factory precharge: 12 PSIG
Max. working pressure: 100 PSIG
Max. operating temperature: 240° F

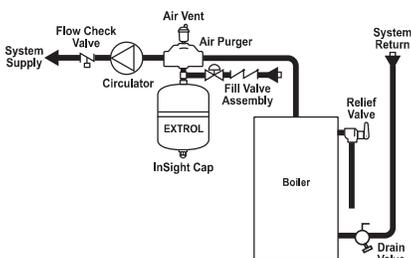

InSight® Indicator Cap

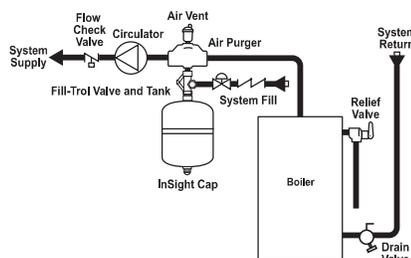

- Patented sight glass changes color if tank needs replacing.
- Alerts user to a problem before damage can occur.

Typical Installations
